
Wynot Teacher Survey Data

Administered as part of the 2009 School/Community Workshop

Prepared January 22, 2009

There are three sections:

- School Culture and Operations - 14 Questions
- Distance Learning Classes - 6 Questions
- The Future - 6 Questions

Section 1: School Culture and Operations

14 Questions

Q1: Teachers and principals listen to and consider student and parent concerns and suggestions.

Q2: Teachers and administrators effectively address bullying and harassment in our schools.

Q3: Teachers and principals clearly explain handbook regulations i.e. attendance, cell phones, and classroom rules, etc.

Q4: Teachers and principals fairly enforce handbook regulations i.e. attendance, cell phones, and classroom rules, etc.

Q5: Our communication systems (both internal and external communication systems i.e. webpage, newsletters, daily bulletins, School Reach, etc.) are beneficial to me and effective in providing me the information I need.

Q6: Teachers consistently utilize APL strategies to manage students and their classroom responsibilities.

Q7: Regular education teachers are adequately trained and supported in providing services to special education students in the regular classroom through RTI, ILCD, MDT, and IEP processes and meetings.

Q8: Students effectively use the floating study hall and advisor period to complete homework assignments and/or access help from teachers/advisors.

Q9: Our current systems and schedules allow adequate access to students, teachers, counselor, and principal.

Q10: I have adequate time to plan for my classes and other school activities.

Q11: Students and teachers generally respect the roles and responsibilities of para-educators in their classrooms.

Q12: Students and teachers have adequate access to technology and technology support to teach, send, receive, and complete course requirements.

Q13: Our school is adjusting adequately to the changes that have come about by the sharing between our four districts.

Q14: School climate is better today than it was a year ago.

Section 2: Distance Learning Classes

6 Questions

Q15: The current class schedules accommodate the needs of distance education and expanded curricula in both the four-day and five-day schools.

Q16: Inappropriate student behavior in distance learning classrooms is addressed in the same way it is in the traditional classroom.

Q17: Students in distance learning classes receive materials and complete assignments in a timely manner.

Q18: Student learning in the distance-learning classroom is comparable to their learning in the traditional classroom.

Q19: Distance education teachers increasingly use the mylearning online system to send and receive course materials.

Q20: In distance learning classes, students at the receiving site receive the same attention from the teachers as the students in the sending site.

Section 3: The Future

6 Questions

Q21: I believe our students are getting the education they need to succeed in the 21st Century.

Q22: Students can see the connection between what they are learning and the rest of their life.

Q23: The changes we are making as a result of the four-school partnership are moving us in the right direction.

Q24: The pace of the changes we are making is appropriate given where we need to go.

Q25: I support combining or cooping athletic activities and other programs as declining student enrollment and/or participation jeopardize our ability to be competitive.

Q26: If enrollments continue to decline I would support combining or moving students to another school so they can continue to have access to learning opportunities and/or programs.
